Zero Hour In Europe

The tell-tale aerial barrage that cripples communications and supplies before an assault is launched now has continued in Germany's western defense area four days. Dispatches speak of history's greatest aerial blitz... saturation raids... clouds of warplanes... furious attacks.

It is obviously zero hour in western Europe. While similar evidence of imminent attack is lacking in Poland, there is reason to believe it is zero hour in eastern Europe, too. Germany is braced for the final assault which will confirm the fact of its defeat in World war II.

The Allies in France have had time to mass supplies and manpower, time to take advantage of the positions gained last summer after the break-through into central France, the landings in southern France and the advance to the German border. They have disposed of the German rear guards, or neutralized them.

Beginning at the moment that sufficient supplies were available in England to launch an invasion, the Allies began to call the turn in the war; they decided when and where they would stage the crucial battles. They are still calling the turn. They have picked out the places for the grand assault against Germany. There is overwhelming evidence in the unprecedentedly heavy aerial attacks that they now have selected the time for it to begin—and that it will be within a few days, to keep the Germans from gaining any respite from the bombardment pouring down on them from around-the-clock flights of warplanes.

Among Our Souvenirs

There were ominous hints and murmurings when Henry A. Wallace was sidetracked and Sen. Truman hitched behind Franklin D. Roosevelt at the Democratic convention last July—some of them coming from the friends of Mr. Wallace.

One of the murmurings found its way into a newspaper column by a writer who habitually finds nothing wrong with the administration that will be on four more years. It went like this and purported to be from an angry Democrat from Mississippi: "I told you that we would get Roosevelt, I didn't tell you that the way we would do it was to use him to get himself. Now Tom Dewey is going to win the election and that is what we were after all the time."

On this occasion the columnist, himself, was entertaining doubts. The literal wing of the Democratic party, he asserted, had been given a "kick in the teeth by the man they three times elected to the presidency... the steam has gone out of them and out of the Democratic party."

And in conclusion: "The Republicans disposed of Wendell Wilkie pretty much in private, but the Democrats insisted on a public execution for Wallace. In 'Ickes' words, 'The worst political blunder in President Roosevelt's 12 years of presidential office.'"

When President Roosevelt makes worse political blunders, it will be time to bet on a clean sweep of the electoral college.

Robot Bombs On U. S.

For reasons of their own, the war and navy departments have warned the public that robot bomb attacks on the United States are "entirely possible." The idea is preposterous, or is it?

Winged explosives roaring out of nowhere to shatter Manhattan Island. Little kids in Brooklyn being dug out of the rubble of collapsed houses. Thousands of refugees being piled aboard trains and moved to safety in Pennsylvania and New Jersey. Anxious relatives wondering whose name may appear on a casualty as a doodlebug casualty at Miami Beach. Bomb cellars at Atlantic City. Silt trenches in the winter snow at Portland. The ghastly panic of sudden attack. "The bombs might be launched from submarines... long-range bombers... catapult plane tenders" suggest the war and navy department. Of course it may never happen, but of course it might.

And, speaking of what might happen, what progress is being made on the Dumbarton Oaks proposals, and what would happen under a regime to secure international peace if a peace-loving nation suddenly were subjected without warning to a rain of rocket bombs? As long as they probably will be the chief reliance of the next nation that chooses to resort to war in defiance of the rules, an answer to that specific question would not be out of order in the prospectus that shortly is to be made available to the general public.

An Inalienable Right

Among the relics of the campaign and the election are the predictions. It would be more charitable if they could be destroyed with the literature left over, the cards, campaign buttons and fly sheets. But they have at least a chance for a higher destiny.

They may be saved and brought to view four years from now. Actually, most of them will be forgotten, or ignored, but a prophet never knows any more when his own words may be used against him. Someone always is likely to remember. Someone always is likely to work out a spite by keeping a file, a clipping, or perhaps nothing but a penciled notation on a scrap of paper.

As this thing goes on year after year, it raises hob with the welfare of the ancient and honorable cult of soothsaying. Not only is a man not a prophet in his own country, but there may be resentful citizens who took exception to his bum steers in adjoining countries—and have the evidence to prove it. One of the inalienable rights is in increasing danger—the right to make a wrong guess without being reminded of it the next time there is a guessing contest.

Global Warfare

On the longest bombing flight in the record so far, United States B-29's have dropped explosives on Sing-

apore. The planes were based in India. On the same day, Japan reported United States scouting planes over the eastern coast of Honshu, main Japanese island, more than 3,000 miles from Singapore, but still in the same theater of war. These planes, it is believed, were flown from the Marianas Islands, 1,500 miles south of the nearest point on Honshu, which is more than 3,000 miles west of Honolulu, and about 6,000 miles from San Francisco.

These were routine flights, in the sense that there was nothing particularly sensational about them. No losses were reported. In both instances, the Japanese offered opposition, but it was of no consequence. They realized it presaged the beginning of repeated attack by long-range aircraft, but there was nothing they could do about it. The war has demonstrated that whenever a well equipped and determined enemy wants to carry out an aerial attack, nothing can stop it. The fact it is being done as a matter of course against targets thousands of miles away every day is a continuous reminder that global warfare, a novel phrase as late as Dec. 7, 1941, has become an established fact three years later.

The Stars Say

For Friday, November 10

AN EVENTFUL day with some sudden and probably astonishing developments is presaged from the dominant astral indications. The surprise may come with an unforeseen and unpredictable upheaval, uprooting or strange adventure, coming in the midst of great promise of advancement, prosperity and generally personal satisfactions and assurances. This crisis might possibly have to do with social, domestic or affectional relations, while business affairs go on to progress and expansion as indicated. Happily there is assistance from powerful and friendly sources to be counted upon to regulate affairs and avert loss and disappointment. With good judgment, and firm hold on the impulses and emotions, all affairs may prove gratifying.

Those whose birthday it is may be prepared for an eventful, thrilling and surprising day, although the thrills may cause some commotion, dangers and spectacular reversals of affairs seemingly on a firm foundation. With restrained well-directed and calm behavior even this sudden upheaval may produce desirable situations and benefits. Refrain from emotional, erratic and impulsive conduct and use reason, calm judgment and there may be promotion, expansion in business and investments with legal matters satisfactorily composed. Friends in high places may assist. Also there may be romantic or affectional developments, with delightful changes.

A child born on this day should have efficiency and talent to obtain its ambitions, personal and business, despite sudden reversals or spectacular changes. Erratic or emotional performances may be its undoing unless curbed.

Right now our boys are getting somewhere in Europe. The time must never come when they'll get nowhere in America.

Winter is really here when the fish stop biting and the cold starts.

The first thing people will do with the new post-war autos is wonder why the country doesn't fix the roads.

GUARDING YOUR HEALTH

Treatment of Parasites

BY LOGAN CLENDENING, M. D.
MY MAIL contains an average of three letters a day asking for treatment of pinworms. And although I have written on the subject many times I will repeat here:

Dr. Clendenning will answer questions of general interest only, and then only through his column.

for the benefit of those many interested persons.

It should be said at the outset that there is no excuse for having pinworms. We know what they are, where they come from, and we have late and improved methods of treating them.

The pinworm, or thread worm, is the smallest worm which acts as a human intestinal parasite. It can be seen by the naked eye, however, and is readily identified because the name thread worm describes it—it looks like the snippings of white thread. It occurs almost exclusively in children. It inhabits the lower small intestine, especially the appendix and rectum. It develops in enormous numbers.

Very Annoying Ailment
It seldom causes any serious diseases, although cases have been reported of sufficient numbers accumulating in the appendix to cause symptoms resembling appendicitis. But while no serious disease is ascribable to the infestation they can be very annoying because at night the worms wander out from the bowel and cause great irritation and itching of the skin. Widespread inflammation of the folds of skin around the buttocks is the result, and the scratching may infect it. The parasites usually come out at night and may be seen on the bed clothes. Then they wander back into the bowel. For this reason part of the treatment is to change the bed clothes every night and boil the sheets separately from other washing. They do not breed in the human intestine, but their breeding places attract flies and other insects and these light on exposed fruit and leave the ova on the outer skin and rind. The prevention is, hence, very simple—to wash all fruit and vegetables with very hot water before putting it in the ice box or serving.

The treatment is effective, but requires patience. The latest drug is phenothiazine. It is given in dosage of about three grains a day for seven days. For children it can be mixed in oatmeal. Adults usually find no difficulty in swallowing capsules of it.

Gentian Violet Treatment
The older classical treatment was with gentian violet (methylrosaline). It is given in the dose of ten milligrams to children three times a day for eight days. Adults can take larger doses at the same intervals and for the same length of time. No alcoholic beverages should be used while the treatment is going on. It may cause some nausea in children.

Gentian violet should be given in capsules, especially capsules with

an enteric coating, which do not dissolve until they are in the intestine. For children too young to swallow capsules, gentian violet is a poor method of treatment because when given in solution it is bound to stain the mouth, lips and tongue. It can be given, however, by enema and is quite effective in that form.

The entire eight day treatment must be repeated three times in succession and then every three weeks for some time. The worms are very resistant and stubborn. They are small enough to bury themselves in a fold of the bowel wrapped up in a ball of mucus where the medicine cannot get at them. Eternal vigilance is the price of freedom from pinworms, and at the first sign of their return the whole treatment must be gone over again.

QUESTIONS AND ANSWERS

V. M.—What are the symptoms of diabetes?

Answer: Diabetes is the best example of a disease which is likely to progress for some time without symptoms. Such symptoms as do occur are likely to go unnoticed because they are not too troublesome—thirst, loss of weight, and increased urination. Sometimes it comes on with pain—neuritis—or sudden coma.

R. A. K.—On the chart the nurse gave me when I took my baby home from the hospital was—"Abnormal findings: Possible atelectasis." What does that mean? He was an eight pound boy delivered by forceps.

Answer: I am surprised the nurse wrote that down. Atelectasis is a temporary condition. When the baby is born its lungs are collapsed because it has not been living an air surrounded existence. If this collapse is hard to overcome at first it is called atelectasis. But it was completely overcome or you wouldn't have taken the baby home.

EDITOR'S NOTE: Dr. Clendenning has seven pamphlets which can be obtained by readers. Each pamphlet sells for 10 cents. For any one pamphlet desired, send 10 cents in coin, and a self-addressed envelope stamped with a three-cent stamp, to Dr. Logan Clendenning, 235 E. 45th st., New York. The pamphlets are: "Three Weeks' Reducing Diet," "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene," and "The Care of the Hair and Skin."

XXIII
I always wanted an office. Now I have one. I've been sitting in it for a week. All I had to do in the past was to get what I wanted was win. There was nothing Boggio could do to me now.

The office was large and fitted with expensive modern furniture. A cross between a showroom and a picture set, and must have cost a fancy chunk of dough.

Boggio had sprung it on me as a joke. He had also sprung my secretary on me that way. Her name was Miss Carr, and she was somber and efficient as hell.

I never had used to her. I never had used the buzzer. I never had used the buzzer. I never had used the buzzer.

Outside of Boggio himself, I knew as much about his private life as I did about his public life. I knew as much about his private life as I did about his public life.

For what seemed to be an eternity, he kept his arm outstretched, then put the gun down on the desk. Neither of us said a word. I came out from behind the chair where I'd unconsciously taken refuge and pulled out my handkerchief. Sweat was pouring down my face.

And then something seemed to snap inside of Boggio. The expression of disbelief and wonder faded from his features and he began to laugh. First a guffaw or two, like a motor that's cold and that's just beginning to turn over. Then he let himself go, his stocky frame shaken by uncontrollable spasms, his fat little jowls trembling with each movement of his head.

I didn't have to be a mind reader to understand. It wasn't the incongruity of the situation that had tickled his fancy. It wasn't the fact that Leo Kabatek was afraid of a gun while his entire existence was tied up with individuals whose first reflex was to grab for one.

It went deeper than that. He'd never forgiven me for having seen him bellyaching that night. Now the balance was restored.

Gradually the laughter tapered off to end in a fit of coughing. When that was over, he turned on his heels and walked out.

Not wishing to leave the gun around the office, I finally decided to put it in my pocket. My hand was shaking so violently that it took all the willpower I had to close my fingers on the cold metal.

There was only one pawnbroker in all of Scotland in the early part of the 19th century.

He snapped the case shut and put it on the desk. "I'll leave you the whole works. That'll make it simpler."

He removed the glasses he'd put on to look at the papers and began fumbling in one of his pockets. Pulling something out he laid it before me and kept his hand over it.

"Leo," he said softly, "I wouldn't want you to come to any harm now. So look what I've brought you."

He lifted his hand, revealing a small pearl-handled revolver. Then he saw the expression on my face.

"Well?" he asked. "What's the matter?"

I didn't answer. How could I tell him that I loathed firearms and that merely looking at one made me jittery. I'd always been that way. I guess everyone's entitled to a phobia. But I could have kicked myself for showing my fear so plainly.

"Take it!" he snapped. "It won't bite you."

I'd just as soon have picked up a snake.

DEMOCRATS GAIN FIVE GOVERNORS

WASHINGTON, Nov. 9.—Democrats unseated Republican governors in five states, but nearly complete election returns today gave GOP leaders something to cheer about too.

They showed that Republicans had overturned Democratic administrations in two states, while electing GOP executives in six others which gave popular majorities to President Roosevelt.

In Connecticut, Illinois, Minnesota, Montana and Delaware—Republican incumbents were reelected. And in New Hampshire, Republican Mayor Charles M. Dale of Portsmouth successfully bucked the Roosevelt tide to win the gubernatorial test.

Of the 31 governorships at stake in this election, the Democrats appeared to have won 15, one of which is close enough, however, to still be called doubtful. This would give them a total of 25 in the nation to 23 for the Republicans, as against the previous lineup of 26 Republicans and 22 Democrats.

Soldiers' Wives and Returning Husbands

You may have seen in the papers where a writer cautioned Army wives that their returning husbands would be "strangers" to them—because they've been through experiences that their wives could never share.

Well, a high-ranking officer wrote an answer to that; he called it nonsense. "What do our men want most? To finish the war and come home... What are they fighting for?... everything the word home means."

Of course, the word "home" means something different to

every fighting man. For home is a lot of little things! A garden or a work bench—well-thumbed books... a mellow glass of beer with friends.

But whatever they are, it's the memory of these small familiar things that he takes with him into battle. And it's these little things that link his thoughts to home—and to the familiar life that he looks forward to returning to.

OHIO EDISON CO. announces a 33 1/3% CUT in MONTHLY GUARANTEED Payments for FARM LINE EXTENSIONS

OHIO Edison Company has reduced the guaranteed monthly payments of all customers served from a farm line extension from 1 1/2% to 1% of the construction cost of the line. This is a cut of 33 1/3%. Kilowatt-hour rates for electricity used remain unchanged.

This reduction is a part of Ohio Edison's plans for postwar to make the benefits of electricity available to the relatively few farms and rural homes in its territory not now served. The Company already supplies service to about 84% of the farms in the areas where it does business.

For further information write or call our nearest office. Our rural representative will be glad to assist you with your farm electrification plans.

Household Hints

Carefully designed storage space can help homemakers do their kitchen work with the least expenditure of time and energy.

Examine new dresses for seams that are not deep enough to hold during washing.

Don't sort clothes on a dirty floor; it makes them harder to launder.

If fat in a kettle, pan or broiler bursts into flame smother it but never pour on water as it will cause it to spatter and spread fire.

A good window washing fluid can be made with warm water containing a little household ammonia, alcohol or vinegar.

Consider Your Height Before Choosing New Two-Toned Clothes

Tall girls, who depend upon two-toned clothes to cut their figures in half, are in the clover this fall because styles make much of color combinations: light jackets, dark skirts and vice versa.

But the short girl, who can't afford to have her stature diminish one iota, instead tries every tail-making device she knows, and will fight shy of clothes that color-divide her figure.

Jap Treatment Of American Prisoners Writes Black Chapter In War History

Known Jap prison and internment camps are shown on this map. Tokyo refuses to reveal all locations of camps where Americans are held.

By PETER EDSON
The story of the 20,000 American soldiers and civilians held captive by the Japanese makes one of the blackest chapters in the history of the war.

There are still some 2000 to 3000 missing from the Bataan group. No Filipinos have ever been reported to this country, the Japs claiming that is none of our business. Since last March, the Japs have reported the names of only 62 captured Americans, but there have been propaganda broadcasts of messages to next of kin from 1000 American soldiers, sailors and marines not yet reported as captured. Deaths have been reported two years after they occurred.

From most of the Japanese prison camps, the Americans may send home only one postcard or one letter a year. From a few of the show camps the number may be three or four messages a year, but that is a maximum. Some of these messages have been two or three years on the way. The last batch of mail was received in August. It had been started on its way in February, coming overland across Siberia, Russia, Iran, Egypt, and thence across the Mediterranean and Atlantic. In the whole three years of the war, there have been only three large prisoner mails from Japan.

Japs Stall Relief
Still worse than the mail situation, however, is inability to get adequate medicines, clothing and food supplies to the inmates of the Jap camps. For two years the U. S. Department of State, the Red Cross and the Swiss government acting as the neutral protecting power in representing American interests, have tried to find some formula for shipping in relief supplies acceptable to the Japanese. But every proposal meets with the diplomatic stall and run-around.

The way matters stand now, 2000 tons of relief supplies have been shipped overland across Siberia to Vladivostok. The Russians have agreed to transfer the supplies to a port south of Vladivostok, where the Japs tentatively have agreed to pick them up. But—they haven't done it yet! These negotiations have been going on since March, 1943. To proposals that medicines be sent in by air, the Japs no answer whatever.

In the summer of 1942 the United States chartered a neutral vessel to carry in supplies for prisoner of war relief, but the Japs refused to give it safe conduct to move in Japanese waters and furthermore indicated they would not send one of their own ships to a neutral port. The Japs will permit the International Red Cross to administer relief only in Hong Kong and parts of Jap-occupied China, but not in Japan, the Philippines, Malaya or the Dutch East Indies.

In the face of this stalemate the only relief supplies which have been forced through Japanese red tape were shipments sent on the two voyages of the Gripsholm in 1942 and 1943 for the exchange of

some 2500 civilian nationals. Assurances have been given that these supplies were distributed, by the Japs to their prisoners, but all efforts to arrange for further exchanges of personnel have met with Japanese refusals to even discuss the subject.

Japan's diplomatic out for all this bad behavior is that her government did not ratify the Geneva convention of 1929, relative to the treatment of prisoners of war. At the outbreak of the war, however, the U. S. government obtained assurances from the Japanese that they would apply the principles set forth in the convention to the treatment of its American captives and to American civilian internees. How well the Japs have lived up to these assurances are best shown by these records.

Spread Far and Wide
Representatives of the Swiss government and the International Red Cross have been permitted to visit only a few of the camps at which Americans are held prisoner. Location of some eight or ten of the camps is not even known. The best reports on conditions in the camps have come from first hand accounts related by the repatriated civilians brought back on the two voyages of the Gripsholm.

Prison camps that have been located are a camp for officers of the rank of colonel or over at Shanghai, a camp on Formosa where General Wainwright was last

reported, a big camp for 1500 prisoners near Mukden, Manchuria, and five active camps on the Japanese Islands proper. There is one camp for Americans near Mindanao in the Philippines, another on Borneo, three or more on Java, one on Sumatra, one in Burma, one in Thailand and several in French Indo-China.

For the Filipinos, there are thought to be camps One and Three near Manila, on a coffee plantation, Number Two 25 miles up river from Davao, and Numbers Four and Eleven also thought to be near Manila, though these last two are mere guesses. Camp Three is a prison hospital and Four may be.

In 1943, 1,896 ships were built in the United States—nearly 70 times the prewar average.

The average time for building a Liberty ship has been cut from 244 days to 32.

Heavy Yanks Given Rest

Quick Treatment Sends Half Of Soldiers Back In Action

By RUTH COWAN

WITH THE U. S. ARMY MEDICAL CORPS IN FRANCE—From a soldier's viewpoint, there's a bit of modern medical magic—symbolized by the pills—in the United States Army's approach to rehabilitation of what is called "shell-shock" in World War I but now is called "combat exhaustion."

Gl Joe calls the pills "blue 88's" or "blue heaven". The objectives of the Medical Corps program are:

Restoring to active military service either combat or valuable back-line duty, men who mentally are "cracked enough."

Bringing to these men stability to enable them to return to civilian life.

The treatment is based on experience in treating heavy bomber crews of the U. S. Army 8th Air Force stationed in England, who are "flying fatigue" and on reports of British medical men, especially Dr. William Sargant and Dr. H. Slater, in treating war-weary soldiers in the British army after the war.

Aid In Study

The study in connection with the program was made under direction of Maj. Roy L. Swank of the Harvard University staff, who is chief of the neuropsychiatric section of this military hospital, which is now in France.

It is Maj. Swank's opinion that all cases will break down under sufficient stress. Some break sooner than others—that's the only difference. The "blue 88's" therapy is not applicable to potential mental cases, but only to those stable, or comparatively stable individuals, who temporarily have "blown their tops."

As Gl Joe puts it—under too much stress.

Signs Of Fatigue

When a man gets too exhausted, he goes on, when he gets hysterical, he develops dizziness, blindness or inability to move an arm.

He is sent to the rear, either to a rest station specializing in the treatment of combat exhaustion cases, or to an evacuation or a general hospital.

The idea is to treat a man as near the front and as soon as possible. Roughly half the cases can be returned to combat afterward.

Before a patient is given the "blue 88" therapy, the core of which is continuous deep narcosis, he is sedated to make sure his is a case that would benefit and he is also given a physical check-up to make certain there is no organic basis for his complaints. Some patients, for example, feel they've developed stomach ailments.

The sedative is so placed that the patient wears off sufficiently for the treatment to be a success for breakfast and supper. Between time he is in a state of deep sleep. This phase is generally from 24 to 48 hours.

When there is a period of recovery during which the patient's diet is supplemented and he is encouraged to take outdoor exercises.

To get an idea of the trends Maj. Watson Harmer, and Capt. Ed. Grendel, both attached to general hospitals in France, made study of 509 men which is the largest sampling made in the western theater. Both doctors stressed it as only indicative.

First Days The Hardest

They found that 17 per cent of the 500 had broken after being in

the lines from one to ten days, 20 per cent broke after 11 to 20 days.

From the third through the seventh week, only 37 per cent cracked. The psychiatrists deduced these men had gained battle experience and also that those with a low breaking point had been weeded out.

The remaining 30 per cent held out 50 days or more.

Out of the 500 cases, 39 had been wounded previously and after recovery had returned to the front.

Of this number 30 lasted ten days or less; seven stayed in from seven to 20 days; one from 20 to 30 days and one for 60 days.

A "goldbrick" doesn't stand much chance of getting out of the front line as a "combat exhaustion" case.

If psychiatrists should miss him, the other men give him away by their reactions. They won't have anything to do with him.

Medical men have respect for the exhaustion cases. "They are men who have stayed in until they could take no more," said Maj. Swank. Maj. Harmer went even further. "They should be decorated," he said.

FORMER PRISONER OF JAPANESE TO SPEAK

Rev. J. W. Pattee, missionary returned from China on the ship where he was interned at Taming, Hopei, North China, will be the speaker at the Church of the Nazarene, Columbus, 7:45 p. m., Nov. 10, 1944.

Mr. Pattee was six years in China. During five years of that time he saw fighting between the Japanese and the Chinese. Three times, he was in the battle. When the war between Japan and America started he was taken prisoner by the Japanese and interned for six months.

In the above picture, Mr. Pattee is shown just after he left internment. When they left the internment the missionaries were told that each could take only what he himself could carry. However, he was not permitted to take his typewriter nor his accordion.

Mr. Pattee will speak on his six years of missionary experience and the fighting he saw between the Japanese and the Chinese. He will also tell of his internment and the trip home. Friends in this community are cordially invited to attend this service. You will find Rev. Pattee intensely interesting with a thoroughly absorbing story to tell.

VOTING HAILED BY CHURCHILL

Says Prospects Improved For Another Conference Of "Big Three"

(By Associated Press)
LONDON, Nov. 9.—Prime Minister Churchill said today the outcome of the U. S. presidential election had "vastly improved" the prospects of another "big three" conference, and that no one could be blamed for hoping victory would come in 1945.

He spoke at the inaugural of London's new lord mayor, Sir Frank Alexander, and paid tribute to Gov. Dewey for sportsmanship in defeat. "Now we stand on the threshold of Germany," the prime minister said, "and it will take the full exertions of the three great powers, every scrap of strength they can give to crush down the desperate resistance which we must expect from this military antagonist at last beaten back to his own lair."

The victory in the Netherlands, Churchill said, "will very shortly place the great part of Antwerp at the disposal of the northern flank of the Allied armies which will presently move into Germany for the final struggle."

A new meeting of President Roosevelt, Marshal Stalin and himself, Churchill declared, "might easily bridge the sufferings of mankind and stop the fearful process of destruction which is now ravaging the earth."

"The prospects of such a meeting," Churchill said, "have been vastly improved by the results of the presidential elections in the United States."

It is certainly remarkable that all this turmoil of the United States election should have been carried through without any disturbing of the ancient, motheaten, threadbare controversies which are to be found in the history books between Great Britain and her American kinsmen now brothers in arms.

"We must be very careful ourselves to avoid mixing ourselves up in American political affairs. I offer my thanks to parliament, press, and to public men of all parties and no parties, perhaps especially to them—for the care and restraint which have made all potential indiscretions die upon their lips."

Churchill praised Gov. Thomas E. Dewey for sportsmanship in defeat, saying: "What model this would be to those states where political differences are not solvable by word or vote, where the question of who is to be in and who is to be out may be one of life and death to be settled by violence and intrigue and where there may be but a short gap between being the ruler and being the victim."

JAPS PUT NEW ARMY HEAD IN PHILIPPINES

SAN FRANCISCO, Nov. 9.—Premier Marshal Stalin's speech this week in which he branded Japan an "aggressor nation," surprised and offended the Japanese people, Domei, Japanese news agency, reported today in a radio broadcast. The broadcast, recorded by the Federal Communications commission, said that the Russian premier's address has become the "central topic of discussion of all Japan" but government circles are refraining from making any comments.

OBITUARY

MRS. J. W. STINE
ALLIANCE, Nov. 9.—Mrs. Louise Stine, 58, wife of J. W. Stine, of 199 W. Main st. died at 11 p. m. yesterday following two years' illness.

Born in Alliance, she spent her entire life there. She was a member of the Methodist church, the Mrs. George Smith Missionary group and Merit Sunday school class.

Surviving are her husband; one son, Pfc. Willis H. Stine of Fort Jackson, S. C.; three grandchildren; a brother, Orrin Tullis of Alliance; two sisters, Mrs. Susan Adams and Miss Helen Tullis of Alliance.

Funeral service will be held at 2:30 p. m. Sunday at the Cassaday and Turkle funeral home in charge of Dr. Batelle McCarty. Burial will be in Fairmount Memorial park.

Friends may call at the funeral home from 7 to 9 p. m. Saturday.

cans "will find out that conditions here in the Philippines are entirely different. Here in the Philippines, we can give free play to our warfare." His broadcast, recorded by American agencies, significantly failed to mention actual progress of the western Leyte fighting.

The storm was the most important factor on the fourth day of the Ormoc road battle. Already facing terrain difficulties—the necessity of fighting their way uphill, the difficulty of using artillery from low firing positions against the hilltops—the Americans were further hampered by the arrival of a tropical hurricane which made muddy bath-tubs of fox holes, made the fighting itself a groping affair in which neither side could see the enemy soldiers they were battling almost hand to hand.

Front line dispatches mentioned the use of Japanese heavy artillery for the first time in several days. American artillery continued to batter the Japanese communications lines which feed forces now locked in the Ormoc road fight.

Aerial warfare was brought to a standstill by the hurricane. No mention was made of the important engagements on Leyte except the major tussle of the 24th division.

Japanese Surprised At Stalin's Condemnation

(By Associated Press)
Gen. Tomoyuki Yamashita, new Japanese army commander in the Philippines, is going to demand "unconditional surrender" from Gen. Douglas MacArthur, the Tokyo radio announced today.

Yamashita, who conquered the Malay peninsula and captured Singapore early in the war, told Joe P. Laurel, puppet Philippine president, according to the broadcast, that the British commander during the negotiations for the surrender of Singapore were "all I want to hear from you is 'yes or no.' I expect to put the same question to MacArthur."

to operate for the balance of the current year.

Seek New Cruiser
Safety Director Curtis Phillips was directed to secure the needed priorities to purchase a new cruiser for the police department. Although money for the purchase is not available at the present time, members of the finance committee expressed the opinion that it would be by the end of the year and advised that early steps towards purchasing a car be made.

A report from the city engineer revealed that bids will be advertised for on the city's 3,000,000 gallon water reservoir project about Nov. 15. Initial bids will be asked on laying the pipe lines to the site southwest of Salem.

An appeal, voiced through Councilman Fred Shafer, regarding alleviation of the parking difficulties on E. State st., in the downtown section, was passed on to the mayor's office. President of Council C. F. Zimmerman said the responsibility for parking controls rested with the city's safety department and not council. He said legislation was on the books and only needed enforcement by the administration.

May Purchase Truck
Consideration was given a proposal to purchase a new truck for the service department and Service Director Frank Wilson instructed to investigate possibilities of securing government trucks now on the market.

Expenses were authorized for one delegate from the Salem civil service commission to attend the annual conference in Columbus Friday. Clerk Roy H. Harris will represent Salem at the meeting.

The streets and sidewalks committee was instructed to investigate problems of laying a sidewalk between Fourth and Fifth streets along Vine ave. Property owners there requested the inquiry.

MORLAN IS NAMED BY NEBO GRANGERS

Charles Morlan was elected master of Mt. Nebo grange at the meeting last night.

Other officers are: Overseer, Arthur Rudebeck; lecturer, Mrs. Guy Frantz; steward, Guy Frantz; assistant steward, Arthur Rudebeck Jr.; chaplain, Mrs. John Shelton; treasurer, George Clark; secretary, Mrs. Charles Morlan; gatekeeper, George Farmer; Ceres, Luella Bricker; pomona, Margaret Cook; Flora, Mrs. Carl Bernuth; woman assistant steward, Mrs. Arthur Rudebeck Jr.

The lecture hour, conducted by Mrs. Guy Frantz, was interspersed with a surprise birthday celebration for S. A. Worman, 87, of Vine ave., who has been active in grange work for 68 years.

A male quartet, Guy Frantz, S. A. Worman, George Clark and H. N. Zimmerman, gave a musical program.

Leetonia Soldier Hurt Second Time In Battle

LEETONIA, Nov. 9.—Mr. and Mrs. C. R. Hollenshead, Cherry Fork ave., have received a telegram from the War department advising them their son, Pvt. Joseph Hollenshead, 19, was wounded in the right arm in Italy for the second time on Oct. 17.

At present he is confined to a base hospital. He was wounded the first time on June 3. Pvt. Hollenshead, who is in the infantry, has been in service since August, 1943, and overseas since March, 1944.

Aerial 'Police Beat' In Pacific Is Wide

(By Associated Press)
U. S. PACIFIC FLEET HEADQUARTERS, Pearl Harbor, Nov. 9.—biggest aerial "police beat" in the world is being maintained over Japanese bases in the Pacific while ground forces concentrate on retaking the Philippines.

A Wednesday communique of Adm. Chester W. Nimitz and one issued today by Gen. Douglas MacArthur reported activity by a wide category of Navy and Army planes directed at 15 island groups this week. The targets were spread over as much as 3,000 miles from north to south and an equal distance from east to west.

Raiders ranged as far south and west as Soemba island in the Lesser Sundas; as far north as Iwo Jima in the Volcano islands—750 miles from Tokyo; as far east as the Marshalls.

Planes of Nimitz' command area hit the Volcanoes, the Marianas, North Palau, Marcus, Wake and the Marshalls.
Planes of the MacArthur sector raided western and southern Philippines, Dutch Celebes, Halmahera, Boeroe, the Lesser Sundas, New Guinea, New Ireland, New Britain and Bougainville.

AMENDMENTS PASS BY 2 TO 1 MARGIN

COLUMBUS, Nov. 9.—Two amendments to the Ohio constitution passed by better than two to one majorities Secretary of State Edward J. Hummel announced today. Passage required a majority.

One provided the chief justice or, in his absence, the Supreme court judge of highest seniority, would fill temporary Supreme court vacancies by appointing a court of appeals judge.

Vote in 8,903 polling places: Yes, 1,322,163; No, 574,318.
The other concerned changes in the qualifications and jurisdictions of the court of appeals.

Vote in 8,903 polling places: Yes, 1,186,313; No, 597,055.

Quits FCC

James Lawrence Fly, above, chairman of the Federal Communications Commission, long a target of bitter charges by some congressmen and some segments of the radio industry, has resigned, effective Nov. 15. He plans a return to private law practice.

ular total exceeding President Roosevelt's by more than 18,000.

Returns from 9,289 polling places gave Dewey 1,584,639; Roosevelt 1,566,243.

Taft Re-elected

The Republicans also put three of their candidates in state offices, re-elected U. S. Sen. Robert A. Taft by a slim margin, retained control of the 23-member congressional delegation and apparently will have a majority in the legislature convening in January.

The other Republicans elected were State Treasurer Don H. Ebricht of Akron, Secretary of State Edward J. Hummel of Cincinnati, and Hugh S. Jenkins of Youngstown, who will become attorney general.

Congressman-at-large George H. Bender of Cleveland set the pace in the Republican vote-getting with a plurality over William Glass of Campbell that likely will exceed 275,000.

Chief Justice Carl V. Weygant of the Ohio Supreme court was re-elected after being pressed hard by Walter B. Wanamaker of Akron. Weygant is a Democrat. Two Republican judges of the Supreme court, Edward S. Matthias and William L. Hart, were returned for six-year terms.

Nazi Party Holiday Won't Be Celebrated

(By Associated Press)
LONDON, Nov. 9.—Berlin broadcasts indicated today that for the first time the greatest of Nazi party holidays will pass without a speech from Adolf Hitler.

Last night was the eve of the annual celebration of the abortive 1923 Munich Beer hall putsch and it has been the custom since Hitler's rise to power for high ranking party members to meet in Munich with him and renew their pledges of faith in the Fuehrer.

But the German radio announced that because of the reich's "total mobilization" the celebration would take place "at a later date" not specified. It appeared that no speech would be forthcoming from Hitler.

Earlier neutral correspondents in Berlin cabled they had been informed the party expected Hitler to speak. When he had not gone on the air by 8 p. m. a powerful ghost voice broke into a German radio program with this demand:

"Why doesn't Hitler speak? Why does the Fuehrer keep silent? What is the matter with Hitler?"

Hitler has made no appearance before a microphone since July 21, when a voice purporting to be his broadcast an assurance to the German people that he was safe after the bomb attempt on his life.

15 Persons Injured In Kent Fire Blast

KENT, Nov. 9.—Fifteen persons were injured last night when struck by debris as a fire and explosion razed a downtown two-story business building.

Robinson Memorial hospital admitted seven persons for treatment but only one, Joseph Weschick, a Kent gunsmith, was reported seriously injured.

Fire Chief Robert M. Clark said sparks from an electric motor ignited rags in the rear room of a hat cleaning establishment. As firemen sought to control the blaze a blast ripped away the front of the building, raining debris into a street crowded with spectators.

DEWEY HOLDS EDGE IN MICHIGAN VOTE

DETROIT, Nov. 9.—Belated returns from Tuesday's election emphasized today the landslide margins by which every Republican aspirant on the state ticket swept to victory under Gov. Harry F. Kelly's leadership, but narrowed the flicker finish race for Michigan's 19 electoral college votes for President.

Not until the Wayne county board of canvassers, meeting today, has unraveled a mixup in which the county's election workers became ensnared will it be known whether Michigan's support went to its President Roosevelt.

Dewey clung to a narrow lead which could be wiped out in the still uncounted Wayne precincts where inexperienced election workers became confused in their tabulations or forgot to write down the presidential totals in their reports to the canvassers. With 171 precincts yet to report the count stood at 1,014,47 for Dewey, 1,001,911 for Roosevelt.

Game Time: 7:45 p. m., at Reilly stadium.

Shifting his lineup to allow Seniors—11 of them—to start, wherever possible and to play in their last game at Reilly stadium tomorrow, Coach Ben Barrett's Quaker starting group will be different from the outfit which began most of the games this year.

Pitted against a victory-starved Lisbon Blue Devil squad in an annual Columbiana county fray, the Salemites are expected to romp to an easy win over the lighter, less-experienced charges of Coach Robert Rutter, tutoring his first season at Lisbon High.

From David Anderson High school, Rutter is bringing a squad that numbers, in all, just 32 men. Included in his starting group will be four letter winners from last season and a host of Freshmen and Sophomore prospects.

Forced by lack of more experienced material, to use younger boys, Rutter is making plans for future years and is disregarding the perfect loss record the Lisbonites have so far. In eight games they have lost each time scoring just 43 points to 249 for the opposition.

Changes in Barrett's starting outfit will include the insertion of Tom Bush, Senior tackle and former end, in at the spot usually filled by big Louie Julian. George Vavrek, another Senior and a regular at center most of this season, will begin in his old spot.

Bob Lucas, a last-year-man with considerable game time in this season, will draw the starting berth at right guard in place of small, but efficient Johnny Pleggie, a Junior.

In the backfield changes are apparent but not for Senior-favoring purposes. Because of the ineffective

SPORT CHATTER

BY HUGH FULLERTON, JR.

NEW YORK, Nov. 9.—Between now and New Year's day a lot of folks who are promoting football games to sell War Bonds and for other worthy causes are bound to be disappointed. The biggest attraction, of course, would be to shift the Army-Navy game to a big city but that won't happen. Next best likely would be another kind of Army-Navy tussle, say, Randolph Field against Bainbridge, but chances are that won't be arranged, either.

TODAY'S GUEST STAR

Tommy Fitzgerald, Louisville Courier-Journal: "General MacArthur has been mentioned as possible successor to Judge Landis as star of baseball, but the job would have to wait for him. Right now he's pretty busy making free agents of the Filipinos."

THE AGE OF SPORTS

W. C. (Pop) Anderson, Utah State's 35-year-old guard who is the oldest active gragger in the Rockies, explains that he took up football "Because I wanted to see if I could take it." If he takes it another year or so, he may find sonny on the same team. He's father of two children, one 14, Les Patrick, age almost 63, still drills occasionally with his teen-age hockey rangers and can bust up most of their attacks single-handed. Coach Rube McCray of William and Mary claims the youngest one-two combination at center this season. First stringer Tommy Thompson of Woodbridge, N. J. is 17 years and 10 months and his sub, George Davis of Hopewell, Va., won't be 17 until late in December.

ALL IN

Penn. State's grid coach, Bob Higgins, has lost 22 players, including six talented kickers, via transfers, ineligibilities, and injuries looked up during practice the other day to see an erstwhile manager trying to kick placements. "This," said Bob, "is total war."

Holtcamp, Former Ohio Star, Dies In Pacific

CLEVELAND, Nov. 9.—Ferdinand Fritz Holtcamp, 55, onetime Mississippi State college football coach and former Ohio State university athlete, died recently at Pearl Harbor after a long illness, relatives here reported. Holtcamp, who served as a civilian construction employee at the Pacific Naval base, was a star center at Ohio State in 1916-17-18, and later coached at Mississippi and Western Reserve universities.

Urges Industrial Loop

AKRON, Nov. 9.—W. H. Edmund of the Goodyear Tire and Rubber Co. is co-author of a plan to form a National Industrial Athletic conference of factories and foster uniform rules to cover athletic competition between member companies. Edmund proposed the plan last night at an industrial recreation clinic sponsored by Purdue university at Lafayette, Ind.

McWilliams Rates Top Billing As A BALL TOTER-PLUS

Coach Says He Is Only Back He Ever Saw Do Everything

STATE COLLEGE, Miss., Nov. 9.—Young Tom (Shorty) McWilliams, the Southeastern Conference's leading scorer, is rated by Mississippi State Football Coach Allyn McKeen as one of the finest backs to ever appear on a Southern gridiron. McKeen broke a five-year silence long enough today to laud his freshman tailback as "coming close to being a back without a weakness."

McWilliams' record for the season: Scored 11 touchdowns for 66 points, averaging 23 yards on scoring runs.

Averaged 6 1/4 yards on 78 rushing plays. Completed 20 of 40 passes attempted for an average of 9 1/2 yards; has had none intercepted.

Returned two kickoffs for 33-yard average. Returned 8 punts for a 21-yard average. Handled the ball a total of 140 times without committing a fumble.

An All-Southern prep back and 180-pound point maker at Meridian, Miss., last season, McWilliams has an appointment to West Point effective in January. He is 18 and a member of the Army Air Force reserve.

LEETONIA SEEKS UNBEATEN RECORD

Seeking their eighth straight win and hoping to close their season without a defeat, the Leetonia Bears, coached by James L. McBride, will take to the roads Saturday to meet an underdog Carrollton gridiron crew at Carrollton in an afternoon fray.

Morale high after winning 33-0 over previously unbeaten Austin-town Fitch, the Bears are "up" to conquer their final foe and post one of the most impressive seasons ever compiled by a Blue and White aggregation. In nine games, if they win over their new foe, Leetonia will have but one blemish—a 19-19 tie with East Palestine in the opening game.

McWilliams' record for the season:

Scored 11 touchdowns for 66 points, averaging 23 yards on scoring runs.

Averaged 6 1/4 yards on 78 rushing plays. Completed 20 of 40 passes attempted for an average of 9 1/2 yards; has had none intercepted.

Predicts Michigan Over Hawkeyes, Purdue To Beat Northwestern

By JERRY LISKA

CHICAGO, Nov. 9.—Peeking out of a pigskin fox-hole—those blasts by Navy, Purdue and Missouri really parted our thinning locks—your prognosticating scribe (batting .766) is game for another sectional guessing sortie.

Army 31, Notre Dame 6—Here we have a strong team of peacetime vintage laying it on a strong team of wartime caliber. It's the old story of a good big man being able to lick a good little man. What Navy did well, the power-to-burn Cadets can do better.

Michigan 19, Illinois 13—Buddy Young may break loose several times in typical fashion, but the Wolverines demonstrated against Pennsylvania that their attack is well-balanced and high-geared. It should be a real scorcher.

Purdue 21, Northwestern 12—The Wildcats are improving but can't match boring Boris Dimancheff of the Boilermakers.

Indiana 20, Minnesota 6—The Hoosiers will be tough after that trimming by the Buckeyes.

Wisconsin 12, Iowa 6—Even without injured Jug Girard, the Badgers appear capable of handling the Hawkeyes, but don't dismiss the possibility of Iowa winning its first Conference start in two seasons. Ohio State 45, Pittsburgh 0—The

tual running of Francis Lanney, who has not recovered from an early season injury. Barrett will shift Ray Kelly, regular right halfback, to the left position and will start Bob Boone, an experienced Sophomore, into Kelly's regular right half job. Charlie Franks may see action tomorrow.

Danny Smith, newly appointed to the regular signal-calling job, will be in at quarterback and Senior Jay Leach, flashy fullback, will start.

Captain and Left End Walt Brian, playing his third and final season of varsity ball, will draw his regular starting assignment. Two likely inserts at end jobs are Dick Bangham and Walt Anderson, both Senior post men. Bill Vignovich, a husky four-year veteran, will crash into action against the Blue Devils, too. Vignovich has been working the end job for several seasons.

Ernie Kornbau, right tackle, and Bill Stoudt, right end, both will be performing their last time under Reilly stadium's lights. Both are Seniors and regulars.

The Salem band and the Lisbon band are expected at the halftime show, Salem featuring an Armistice day program. The Blue and White organization is planning a patriotic performance.

BRESKO DOG FOOD
 New Formula with FRESH RAW LIVER
 ... the complete food, containing all needed minerals and vitamins
 We have discovered a special new process, by which we cook fresh raw liver into the famous BRESKO, making it even more palatable, more nourishing and more healthful than ever.
 Don't confuse Fresh Raw Liver with Liver Meal. Fresh Raw Liver is vastly better since the valuable liver juices are preserved. Your Dog will have a sleek silky coat, more pep, better health. Liver is invaluable for body and blood building.
 To give your dog the benefit of this essential food to the fullest degree, you must give him BRESKO. He'll like it so well that he'll beg you for more.

Hates Cows for Life
 WATER VALLEY, Miss. — Pic. James R. Rogers, son of Mr. and Mrs. I. S. Rogers of Water Valley, has developed such a hatred for cows that he'll hardly drink milk and he certainly has reason for disliking the bovine creatures. Rogers and another member of an airborne division were pinned down beneath some bushes in the center of a German artillery position in Normandy. Rogers, a Medical corps man, was attempting to aid the jump soldier, who had received a broken leg. For three agonizing days, the couple had to watch silently as their place of concealment was being calmly eaten leaf by leaf by cows grazing in the area. On the third day, and with but a few leaves left, Rogers said, they were saved when the American Army advanced.
